

DermHa

Gentle Face and Body Wash

Our facial and all over body cleanser for dry, scaly and sensitive skin. A must have for all skin types, especially loved post peel/laser and surgery. Hyaluronic acid, aloe, and yarrow make this lathering cleanser effective and gentle. Recommended for all skins post peel/laser/surgery.

Rejuvenation Tonic

Our refreshing, alcohol-free tonic with witch hazel, multi-fruit acids and hyaluronic acid rejuvenates and removes impurities without depleting skin of its natural moisture. Aloe, allantoin, zinc and calendula aid in nourishing and soothing skin.

Lactic Acid Exfoliation Body Gel

Our light body exfoliant gently loosens dead skin on dry, rough areas of the body including hands, elbows, knees and feet. Aloe, jojoba and hyaluronic acid help soothe and calm skin while antioxidants protect from free radical damage.

HA Therapy Plus

Our light hydration for normal to oily skin types as well as young skin, skin with excess oil, blemishes or ingrown hairs. Contains hyaluronic acid, the natural healing properties of tamanu and lutein, plus soothing calendula and arnica.

“Our rich nourishing crème with high concentrations of hyaluronic acid plus dermHA’s proprietary formulation reduces free radical damage and helps skin look smooth, soft and healthy. We’ve combined powerful antioxidants, squalane, botanicals and vitamins to make a highly effective moisturizer.”

“Our all over hydrating crème provides a protective film for chapped, flaky and sensitive areas of the face and body. Soothing properties of arnica, calendula and vitamin B6 calm and soften rough, dry skin.”
